

# DIPLOMA IN POLICING AND INVESTIGATION

MQA/FA4818 ; (N/861/4/0010)

## ABOUT THE PROGRAMME

This program will focus on understanding students on aspects of constitutional law, policies and systems and criminal prevention procedures. While existing legislation grows in line with time circulation, the constitution remains a document and guides to all other laws passed by Parliament.

The law or constitution cannot be separated from the historical, economic, sociological and political context of a country. Apart from that, the program also explains the process of law-making, the three levels of government, the relations between the state government and the federal government and other important aspects of the constitution.
